ICAR Celebrated World Environment Day

ICAR Research Complex for NEH Region, Jharnapani. Medziphema observed ôWorld Environment Dayô on 5th of June 2016. Speaking on the occasion, Dr. D. J. Rajkhowa, Joint Director, Nagaland Centre stated how human activities are increasingly having a major effect on the interactive global systems driven by climate, land, water and vegetation. Increase in emissions of Green House Gases (GHGs) like carbon dioxide, methane and nitrous oxide are causing changes in the composition of the atmosphere. Every person has a role to play in protecting the environment not just on World Environment Day but every day. Itôs everyone responsibility to save the environment. So to mark the occasion, tree sapling of various species were planted wherein all the staff members actively participated.
