2. The maize should be full in size, free from weevils, broken and damaged kernels.
3. The maize should also be free from fungus, storage pest infestation, aflatoxin and any other mycotoxins.
4. The material should be packed in clean and sound jute bags. The mouth of each gunny bag shall be either machine stitched or rolled over or hand stitched with strong jute twine.

Specification

SI No.	Characterstics	Required level
1	Moisture, percent by weight, Max	12.00 (Max)
2	Crude protein (N x 6.25), percent by weight, Min.	8.5 (min)
3	Acid insoluble ash, per cent by weight, Max.	8.5 (min)

B. Soybean meal

It (preferably yellow variety) must be prepared from seed coat removed soybeans by solvent extraction and heat treatment. The meal should be in flakes form. The meal should meet the following requirement and Specifications.

Requirements

1. It should be free from dust, stone, lumps of earth clay, mud, chaff straw weed seed, and any other non-food grain.
2. The meal should be free from rancidity, adulterants, insect or fungus infestation and from fermented musty or other objectionable odours.
3. The meal should be free from extraneous matter such as dirt, iron and other metallic pieces.
4. The meal should be packed in clean, sound jute bags without holes and mouth of each bag should be either machine stitched or rolled over or hand stitched with strong jute

SI No.	Characterstics	Required level
1	Moisture, percent by weight, Max	13.00, (Max)
2	Crude protein (N x 6.25), percent by weight, Min.	44.00 (Min)
3	Acid insoluble ash, per cent by weight, Max.	4.00 (Max)

C. Wheat bran

Requirements

1. It should be free from dust, stone, lumps of earth clay, mud, chaff straw weed seed, and any other non-food grain.
2. The meal should be free from rancidity, adulterants, insect or fungus infestation and from fermented musty or other objectionable odours.
3. The meal should be free from extraneous matter such as dirt, iron and other metallic pieces.

SI No.	Characterstics	Required level
1	Moisture, percent by weight, Max	14.00, (Max)
2	Crude protein (N x 6.25), percent by weight, Min.	12.00 (Min)

3	Acid insoluble ash, per cent by weight, Max.	4.00 (Max)
----------	--	------------

D. Rice bran

Requirements

1. It should be free from dust, stone, lumps of earth clay, mud, chaff straw weed seed, and any other non-food grain.
2. The meal should be free from rancidity, adulterants, insect or fungus infestation and from fermented musty or other objectionable odours.
3. The meal should be free from extraneous matter such as dirt, iron and other metallic pieces.

SI No.	Characterstics	Required level
1	Moisture, percent by weight, Max	14.00, (Max)
2	Crude protein (N x 6.25), percent by weight, Min.	8.00 (Min)
3	Acid insoluble ash, per cent by weight, Max.	4.00 (Max)

E. Mustard oil cake

Requirements

1. It should be free from dust, stone, lumps of earth clay, mud, chaff straw weed seed, and any other non-food grain.
2. The meal should be free from rancidity, adulterants, insect or fungus infestation and from fermented musty or other objectionable odours.
3. The meal should be free from extraneous matter such as dirt, iron and other metallic pieces.

SI No.	Characterstics	Required level
1	Moisture, percent by weight, Max	11.00, (Max)
2	Crude protein (N x 6.25), percent by weight, Min.	<30.00 (Min)
3	Acid insoluble ash, per cent by weight, Max.	4.00 (Max)

F. Ground nut cake:

Requirements

1. It should be free from dust, stone, lumps of earth clay, mud, chaff straw weed seed, and any other non-food grain
2. The meal should be free from rancidity, adulterants, insect or fungus infestation and from fermented musty or other objectionable odours.
3. The meal should be free from extraneous matter such as dirt, iron and other metallic pieces.
4. The meal should be packed in clean, sound jute bags without holes and mouth of each bag should be either machine stitched or rolled over or hand stitched with strong jute.

SI No.	Characterstics	Required level
1	Moisture, percent by weight, Max	11.00, (Max)
2	Crude protein (N x 6.25), percent by weight, Min.	40.00 (Min)
3	Acid insoluble ash, per cent by weight, Max.	4.00 (Max)

G. Fish meal:

Requirements

1. It should be free from dust, stone, lumps of earth clay, mud, chaff straw weed seed, and any other non-food grain
2. The meal should be free from rancidity, adulterants, insect or fungus infestation and from fermented musty or other objectionable odours.
3. The meal should be free from extraneous matter such as dirt, iron and other metallic pieces. The meal should be packed in clean, sound jute bags without holes and mouth of each bag should be either machine stitched or rolled over or hand stitched with strong jute.

SI No.	Characterstics	Required level
1	Moisture, percent by weight, Max	11.00, (Max)
2	Crude protein (N x 6.25), percent by weight, Min.	50.00 (Min)
3	Acid insoluble ash, per cent by weight, Max.	4.00 (Max)

H. Pelleted feed for Pig

Requirements

1. The meal should be free from rancidity, adulterants, insect or fungus infestation and from fermented musty or other objectionable odours.
2. The meal should be free from extraneous matter such as dirt, iron and other metallic pieces.
3. The meal should be packed in clean, sound jute bags without holes and mouth of each bag should be either machine stitched or rolled over or hand stitched with strong jute.
4. Pellete Size should be 2-3 cm in size and ingredients should be processed either through a hammer mill or a roller mill equipped with an ¼ inch (approx.700-800 µm) screen.

Required Specification:

Items	Moisture, % Max	CP, % Min	EE, % Min	Crude Fiber, % Max	Acid insoluble ash, % Max	Energy, Kcal/kg
Starter	11.0	20	2	5	4.0	3360
Grower	11.0	18	2	6	4.0	3170
Finisher	11.0	16	2	8	4.0	3170

I. Salt: Salt should be free flow, free from any adulterant, free of lumps.

J. Pelleted feed for Poultry

Requirements

1. The meal should be free from rancidity, adulterants, insect or fungus infestation and from fermented musty or other objectionable odours.
2. The meal should be free from extraneous matter such as dirt, iron and other metallic pieces.
3. The meal should be packed in clean, sound jute bags without holes and mouth of each bag should be either machine stitched or rolled over or hand stitched with strong jute.
4. Pellete Size should be 2-3 cm in size and ingredients should be processed either through a hammer mill or a roller mill equipped with an ¼ inch (approx.700-800 µm) screen.

Required Specification:

Items	CP, % Min	Calcium percent by mass	Available phosphorus by mass	Energy, Kcal/kg
Starter	21	1	0.5	2900
Grower	19	1	0.5	2800
Layer	16	3	0.5	2600

K. Paddy Husk/Rice Husk: It should be new, dry, free from lump. It should be free from dark coloration. There should be no fungus infection

Annexure - I

3. Xyz (Page 7) etc..

Instructions for Online Bid Submission

The bidders are required to submit soft copies of their bids electronically on the CPP Portal using valid Digital Signature Certificates. The instructions given below are meant to assist the bidders in registering on the CPP Portal, prepare their bids in accordance with the requirements and submitting their bids online on the CPP Portal.

For More useful information for submitting online bids on the CPP Portal may be obtained at <https://eprocure.gov.in/eprocure/app>.

REGISTRATION

- Bidders are required to enroll on the e-Procurement module of the Central Public Procurement Portal (URL <https://eprocure.gov.in/eprocure/app>.) by clicking on the link '**Online Bidder Enrollment**' on the CPP Portal which is free of charge.
- As part of the enrolment process, the bidders will be required to choose a unique username and assign a password for their accounts.
- Bidders are advised to register their valid email address and mobile numbers as part of the registration process. These would be used for any communication from the CPP Portal.
- Upon enrolment, the bidders will be required to register their valid Digital Signature Certificate (class II or Class III certificates with signing key usage) issued by any certifying authority recognized by CCA India (e.g. Sify/nCode/eMudhra etc.) with their profile.
- Only one valid DSC should be registered by a bidder. Please note that the bidders are responsible to ensure that they do not lend their DSC's to others which may lead to misuse.
- Bidder then logs in to the site through the secured log-in by entering their users ID/password and the password of the DSC/e-Token.

SEARCHING FOR TENDER DOCUMENTS

- There are various search options built in the CPP Portal. To facilitate bidders to search active tenders by several parameters. These parameters could include Tender ID, Organization Name, Location, Date, Value etc. There is also an option of advanced search for tenders, wherein the bidders may combine a number of search parameters such as Organization Name, Form of Contract, Location, Date, Other keywords etc. to search for a tender published on the CPP Portal.
- Once the bidders have selected the tenders they are interested in, they may download the required documents/tender schedules. These tenders can be moved to the respective 'My Tenders' folder. This would enable the CPP Portal to intimate the bidders through SMS/email in case there is any corrigendum issued to the tender document.
- The bidder should make a note of the unique Tender ID assigned to each tender, in case they want to obtain any clarification/help from the Helpdesk.

PREPARATION OF BIDS

- Bidder should take into account any corrigendum published on the tender document before submitting their bids.
- Please go through the tender advertisement and the tender document carefully to understand the documents required to be submitted as part of the bid. Please note the number of covers in which the bid documents have to be submitted, the number of documents- including the names and content of each of the document that need to be submitted. Any deviations from these may lead to rejection of the bid.
- Bidder, in advance, should get ready the bid documents to be submitted as indicated in the tender document/schedule and generally, they can be in PDF/XLS/RAR/DWF/JPG formats. Bid documents may be scanned with 100 dpi with black and white option which helps in reducing size of the scanned document.
- To avoid the time and effort required in uploading the same set of standard documents which are required to be submitted as a part of every bid, a provision of uploading such standard documents (e.g. PAN card copy, annual reports, auditor certificates etc.) has been provided to the bidders. Bidders can use 'My Space' or 'other important Documents' area available to them to upload such documents. These documents may be directly submitted from the 'My Space' area while submitting a bid, and need not be uploaded again and again. This will lead to a reduction in the time required for bid submission process.

SUBMISSION OF BIDS

- Bidder should log into the site well in advance for bid submission so that they can upload the bid in time i.e. on or before the bid submission time. Bidder will be responsible for any delay due to other issues.
- The bidder has to digitally sign and upload the required bid documents one by one as indicated in the tender document.
- Bidder has to select the payment option as 'offline' to pay the tender fee/EMD as applicable and enter details of the instrument.
- Bidder should prepare the EMD as per the instructions specified in the tender document. The original should be posted/couriered/given in person to the concerned official, latest by the last date of bid submission or as specified in the tender documents. The details of the DD/any other accepted instrument, physically sent, should tally with the details available in the scanned copy and the data entered during bid submission time. Otherwise the uploaded bid will be rejected.
- Bidders are requested to note that they should necessarily submit their financial bids in the Format provided and no other format is acceptable. If the price bid has been given as a standard BOQ format with the tender document, then the same is to be downloaded and to be filled by all the bidders. Bidders are required to download the BoQ file, open it and complete the white colored (unprotected) cell with their respective financial quotes and other details (such as name of the bidder). No other cells should be changed. Once the details have been completed, the bidder should save it and submit it online, without changing the filename. If the BOQ file is found to be modified by the bidder, the bid will be rejected.
- The server time (which is displayed on the bidders' dashboard) will be considered as the standard time for referencing the deadlines for submission of the bids by the bidders, opening of bids etc. The bidders should follow this time during bid submission.
- All the documents being submitted by the bidders would be encrypted using PKI encryption techniques to ensure the secrecy of the data. The data entered cannot be viewed by unauthorized persons until the time of bid opening. The confidentiality of the bids is maintained using the secured Socket Layer 128 bit encryption technology. Data storage encryption of sensitive fields is done. Any bid document that is uploaded to the server is subjected to symmetric, encryption using a system generated symmetric key. Further this key is subjected to asymmetric encryption using buyers/bid openers public keys. Overall, the uploaded tender documents become readable only after the tender opening by the authorized bid openers.
- The uploaded tender documents become readable only after the tender opening by the authorized bid openers.

- Upon the successful and timely submission of bids (i.e. after clicking ‘Freeze Bid Submission’ in the portal), the portal will give a successful bid submission message and a bid summary will be displayed with the bid no. and the date and time of submission of the bid with all other relevant details.
- The bid summary has to be printed and kept as an acknowledgement of the submission of the bid. This acknowledgement may be used as an entry pass for any bid opening meetings.
- Any queries relating to the tender documents and the terms and conditions contained therein should be addressed to the Tender Inviting Authority for a tender or the relevant contract person indicated in the tender.
- **Any queries relating to the process of online bid submission or queries relating to CPP Portal in general may be directed to the 24x7 CPP Portal Helpdesk Nos. 0120-4200462/0120-4001002.**
