Asstt. Administrative Officer

TECHNICAL SPECIFICATION FOR GREEN HOUSE (100 Sq.mtr)

Shape: - Dome type

Main chamber: - 16.0 x 6.25 x 3.6 x 2.4m (L x W x CH x SH)

Structure: - Made of GI square pipes (ISI marked) size 48mm x 48mm (column), 38mm x 38mm (Truss & foundation) and 32mm x 32mm (Truss member & Purlin) IS 1239 class B, designated to film the frame would be strong enough to withstand similar wind velocities.

Buffer chamber: - Made of GI square pipes (ISI marked), of size 2.0 x 2.0 x 2.4m (length x width x height), with two doors of size 1000 x 2000 mm each having hydraulic door closers. Clear 6 mm polycarbonate glazing, top & bottom tracks, jambs, flashings & installation hardware, Air curtain will be provided over the entry doors to cover full width. A disinfection pit of size 600 x 400mm and 50 mm deep to be provided in front of buffer room.

Cladding: Top & side covered with UV stabilized 200 micron transparent plastics films conforming Indian Standards (IS 15827 : 2009), multilayered, antiviral, thermic, anti mist, anti dust, anti drip, anti sulphur, diffused, anti corrugation, clear and having minimum 85% level of light transmittance.

GI profile /Poly fixing: C type profile made from GI would have high strength with light weight (approx 220-250 gm/m) smooth edges, curve bottom proper for 31.8 mm to 76.2 mm pipes, Proper channel for zig-zag spring and suitable for double spring locking 0.9mm thick. Self drilling screw would be fixed on profile every 30 cm along the full length of the profile.

Internal screen: at gutter height inside poly house will be provided with retractable 50% UV stabilized green/black shade net, with hand operated folding machines.

Side Ventilation: On both sides, 1.2m wide will be provided with 40 mesh insect netting. This net will be covered with roll able/retractable (with hand operated rolling machines.) UV stabilized 200 micron transparent plastics films on both sides.

Roof top sprinklers: Three sprinklers of circular sprinkling type (to cover whole width and length of poly house) to be installed on roof top through 16 mm diameter LLDPE pipe. Sprinklers to be operated with pump installed for fogging/misting.

Humidification/Fogging System:

Fogger	: Micro fogger hanging type
Water Discharge	: 28 -32 LPH each nozzles
Quantity	: As per requirement
Lateral pipe	: 16 mm LDPE black
Filter	: Online Disc/screen
Water storage	: PVC Tank 500 l, standard ISI make.
Pump	: 1.0 HP or as per requirement of high brand quality

Electrical Fittings: - Complete wire ISI marked/ any reputed make with copper wire and insulation with desired load switches Anchor/ ISI marked of desired load with switches as required. MCB: - Reputed make/ ISI marked – Complete set.

Drip irrigation system:

Quality and reputed Inline Lateral 16mm, 2.1 lph@30cm spacing, 4kg/cm² PVC main and sub main pipes, PVC Ball Valves, Ventury Assembly, Air release Valve, Flush Valve, connected to Common Plastic Screen Filter, Fittings and Accessories.

Evaporated cooling system:

A. 1.2 m tall 6.0m long and 100mm thick evaporative cellulose CELDEC complete set cooling pad with all necessary framing material of aluminium require supporting distribution and returning piping. Gutters, down spout end drip pan, plumbing kit, pump as per required, drilled PVC piping cap, pad, retainer, and all suspension hardware. Metal flashings as required to seal pad to vent opening 4" thick evaporative cooling pad material:

- Construction materials: Aluminium profiles Tray sides, Top etc.
- Plastic Profiles : Water distribution trip
- Cooling media : 100 mm thick celdek 7090/500
- Filtration : 25 to 55 mm viscous filter for 30 mm efficiency
- Water Storage Tank : 500 litre
- Miscellaneous : Fasteners Galvanized, Rivet - Aluminium
- Pump : 1.0 HP mono block ISI approved equivalent
- Efficiency : At velocities of 1-3 M/s to give efficiency from 60-95%
- Pad Protection : 40 mesh Nylon for extra protection from fitted behind the Pad

B. Slow speed Axial Flow Fan – Single speed belt driven exhaust fan size 36", Qty 02.

Microprocessor Control Panel for Automation: For Temperature & Humidity Control System:

a. Technical feature of temp. Control system – Temp. Range 0.1 to 59.9 °C Accuracy - ±1 °C Hysteresis: 0.4°C with sensor prob Pt.-100 sensor cord 5 meters. Input: 200-240 VAC (110 VAC available on demand), Ambient: 5°C to 45°C, RH upto 85% normally

b. Relative Humidity Control System: It maintains RH in the range if ±4%-13%, Range 30% - 90%, Real RH: ±2%. ±1 digit (at 45%), ambient: 5°C to 45°C, RH upto 95%

Water supply: Water tank (1000 lts) with water access in Poly house (18mm) with necessary PVC fitting (T, elbow, bend, Sockets, Valves etc.). Source of water 10-15m away from sight.

Civil Works:

Foundation: Grouting of vertical poles in CC 1:2:4 (1 Cement : 2 Sand : 4 Stone aggregate 20 mm nominal size (30 x 30 x75 cm) below ground level.

Curtain Wall: Made of 1st Class bricks in 1:6morter, all sides of the poly house 60cm above GL and 30 cm below GL with 10cm thick PCC base duly painted & plastered.

Note : (a) Bidders have to meet/comply all the required specification cited above to Qualify in the technical bid.

(b). Provide technical literature/catalogue of the product for king reference.

Instructions for Online Bid Submission

The bidders are required to submit soft copies of their bids electronically on the CPP Portal using valid Digital Signature Certificates. The instructions given below are meant to assist the bidders in registering on the CPP Portal, prepare their bids in accordance with the requirements and submitting their bids online on the CPP Portal.

For More useful information for submitting online bids on the CPP Portal may be obtained at <https://eprocure.gov.in/eprocure/app>.

REGISTRATION

- Bidders are required to enroll on the e-Procurement module of the Central Public Procurement Portal (URL <https://eprocure.gov.in/eprocure/app>.) by clicking on the link '**Online Bidder Enrollment**' on the CPP Portal which is free of charge.
- As part of the enrolment process, the bidders will be required to choose a unique username and assign a password for their accounts.
- Bidders are advised to register their valid email address and mobile numbers as part of the registration process. These would be used for any communication from the CPP Portal.
- Upon enrolment, the bidders will be required to register their valid Digital Signature Certificate (class II or Class III certificates with signing key usage) issued by any certifying authority recognized by CCA India (e.g. Sify/nCode/eMudhra etc.) with their profile.
- Only one valid DSC should be registered by a bidder. Please note that the bidders are responsible to ensure that they do not lend their DSC's to others which may lead to misuse.
- Bidder then logs in to the site through the secured log-in by entering their users ID/password and the password of the DSC/e-Token.

SEARCHING FOR TENDER DOCUMENTS

- There are various search options built in the CPP Portal. To facilitate bidders to search active tenders by several parameters. These parameters could include Tender ID, Organization Name, Location, Date, Value etc. There is also an option of advanced search for tenders, wherein the bidders may combine a number of search parameters such as Organization Name, Form of Contract, Location, Date, Other keywords etc. to search for a tender published on the CPP Portal.
- Once the bidders have selected the tenders they are interested in, they may download the required documents/tender schedules. These tenders can be moved to the respective 'My Tenders' folder. This would enable the CPP Portal to intimate the bidders through SMS/email in case there is any corrigendum issued to the tender document.
- The bidder should make a note of the unique Tender ID assigned to each tender, in case they want to obtain any clarification/help from the Helpdesk.

PREPARATION OF BIDS

- Bidder should take into account any corrigendum published on the tender document before submitting their bids.
- Please go through the tender advertisement and the tender document carefully to understand the documents required to be submitted as part of the bid. Please note the number of covers in which the bid documents have to be submitted, the number of documents- including the names and content of each of the document that need to be submitted. Any deviations from these may lead to rejection of the bid.
- Bidder, in advance, should get ready the bid documents to be submitted as indicated in the tender document/schedule and generally, they can be in PDF/XLS/RAR/DWF/JPG formats. Bid documents may be scanned with 100 dpi with black and white option which helps in reducing size of the scanned document.
- To avoid the time and effort required I uploading the same set of standard documents which are required to be submitted as a part of every bid, a provision of uploading such standard documents (e.g. PAN card copy, annual reports, auditor certificates etc.) has been provided to the bidders. Bidders can use 'My Space' or 'other important Documents' area available to them to upload such documents. These documents may be directly submitted from the 'My Space' area while submitting a bid, and need not be uploaded again and again. This will lead to a reduction in the time required for bid submission process.

SUBMISSION OF BIDS

- Bidder should log into the site well in advance for bid submission so that they can upload the bid in time i.e. on or before the bid submission time. Bidder will be responsible for any delay due to other issues.
- The bidder has to digitally sign and upload the required bid documents one by one as indicated in the tender document.
- Bidder has to select the payment option as 'offline' to pay the tender fee/EMD as applicable and enter details of the instrument.
- Bidder should prepare the EMD as per the instructions specified in the tender document. The original should be posted/couriered/given in person to the concerned official, latest by the last date of bid submission or as specified in the tender documents. The details of the DD/any other accepted instrument, physically sent, should tally with the details available in the scanned copy and the data entered during bid submission time. Otherwise the uploaded bid will be rejected.
- Bidders are requested to note that they should necessarily submit their financial bids in the Format provided and no other format is acceptable. If the price bid has been given as a standard BOQ format with the tender document, then the same is to be downloaded and to be filled by all the bidders. Bidders are required to download the BoQ file, open it and complete the white colored (unprotected) cell with their respective financial quotes and other details (such as name of the bidder). No other cells should be changed. Once the details have been completed, the bidder should save it and submit it online, without changing the filename. If the BOQ file is found to be modified by the bidder, the bid will be rejected.
- The server time (which is displayed on the bidders' dashboard) will be considered as the standard time for referencing the deadlines for submission of the bids by the bidders, opening of bids etc. The bidders should follow this time during bid submission.
- All the documents being submitted by the bidders would be encrypted using PKI encryption techniques to ensure the secrecy of the data. The data entered cannot be viewed by unauthorized persons until the time of bid opening. The confidentiality of the bids is maintained using the secured Socket Layer 128 bit encryption technology. Data storage encryption of sensitive fields is done. Any bid document that is uploaded to the server is subjected to symmetric, encryption using a system generated symmetric key. Further this key is subjected to asymmetric encryption using buyers/bid openers public keys. Overall, the

uploaded tender documents become readable only after the tender opening by the authorized bid openers.

- The uploaded tender documents become readable only after the tender opening by the authorized bid openers.
- Upon the successful and timely submission of bids (i.e. after clicking 'Freeze Bid Submission' in the portal), the portal will give a successful bid submission message and a bid summary will be displayed with the bid no. and the date and time of submission of the bid with all other relevant details.
- The bid summary has to be printed and kept as an acknowledgement of the submission of the bid. This acknowledgement may be used as an entry pass for any bid opening meetings.
- Any queries relating to the tender documents and the terms and conditions contained therein should be addressed to the Tender Inviting Authority for a tender or the relevant contract person indicated in the tender.
- **Any queries relating to the process of online bid submission or queries relating to CPP Portal in general may be directed to the 24x7 CPP Portal Helpdesk Nos. 0120-4200462/0120-4001002.**
